Pro koho je kurz určen

This advanced-level course is for support staff for AIX on POWER systems.

Co Vás naučíme

You will have a firm grounding in the Perl language and be able to:

- Write Perl scripts for data-processing, system administration, and other applications
- Use modules from the Perl Module Library to improve your efficiency

Požadované vstupní znalosti

You should have:

- An understanding of programming fundamentals: variables, flow control concepts such as repetition and decision.
- A working knowledge of AIX including the use of the vi editor, find and grep commands.
- Students without this experience should attend AIX Basics (AN10G).

Osnova kurzu

Basic shell concepts

Flow control in a shell Script

Functions and typeset

Shell features such as arithmetic and string handling

Using regular expressions

Using sed, awk and other AIX utilities
