Pro koho je kurz určen

Cloud Network Engineers, Cloud Security Architects, Cloud Security Administrators, Cloud Security Operations Specialists, Cloud Security Analysts, and Support Staff.

Co Vás naučíme

Prisma Cloud is the industry's most complete Cloud Native Application Protection Platform (CNAPP), with the industry's broadest security and compliance coverage—for infrastructure, workloads, and applications, across the entire cloud native technology stack—throughout the development lifecycle and across hybrid and multi-cloud environments.

In this course, you will be introduced to the Cloud Security Posture Management and Cloud Workload Protection modules:

- Onboard cloud accounts to enable visibility, compliance, and governance with Cloud Security Posture Management
- Manage users and enable third party IdP providers authentication using SSO
- Monitor, investigate, and remediate issues triggered by alerts and send notifications to integrated third-party services
- Protect run-time environments with Cloud Workload Protection

The technical curriculum developed and authorized by Palo Alto Networks and delivered by Palo Alto Networks Authorized Training Partners helps provide the knowledge and expertise that prepare you to protect our digital way of life. Our trusted certifications validate your knowledge of the Palo Alto Networks product portfolio and your ability to help prevent successful cyberattacks and safely enable applications.

Požadované vstupní znalosti

Students should have intermediate knowledge and experience with cloud network architecture and engineering, cloud security administration, operationalizing cloud technologies, and analyzing cloud security issues.

Studijní materiály

Studijní materiál Palo Alto.

Osnova kurzu

- Prisma Cloud Overview
- Cloud Security Posture Management
- Onboarding Public Cloud Accounts
- User Administration
- Monitoring Public Clouds

GOPAS

- External Integrations
- Threat Detection
- Data Security
- Cloud Network Analyzer
- Cloud Workload Protection
- Prisma Cloud Compute Installation
- Compute Management Settings
- Agentless Scanning
- Host Security
- Container Security
- Serverless Security
- Web Application and API Security
- Image Analysis Sandbox
- Maintenance and Troubleshooting
